TOKA – A HOME BUILT OVER TEN YEARS

Dear TOKA Friends,

In 2025, TOKA proudly celebrated 10 years of growing, learning, and building together. What began as a small initiative driven by belief in young people has, over a decade, grown into a nationwide movement for volunteering, education, and civic engagement. Today, TOKA stands as Kosovo's leading organization for volunteering and experiential learning – rooted in communities, schools, and institutions across the country.

One of the most meaningful milestones of our 10th anniversary was the launch of the “LULËZOJNË” Scholarship. Introduced during TOKA's Gala Night, this program represents our commitment to paying forward the trust and support TOKA has received over the years. Through the generosity of businesses, diaspora, and individual donors, we awarded 22 scholarships to young women, rural youth, and first-generation university students – each one a reminder that access to education can change the course of a life.

This anniversary year was both a moment of reflection and a leap forward. In 2025 alone, 3,500 youth, volunteers, teachers, and partners engaged through TOKA's programs – strengthening schools, supporting communities, and shaping a more inclusive and resilient society. From Service-Learning and Solidarity Action Day to Formal Education, research, camps, and advocacy, this year reaffirmed that young people are not only beneficiaries of change, but its strongest drivers.

In parallel, 2025 marked strong progress inside the classroom. Together with municipalities and the Faculty of Education, we expanded Experiential Learning Methodology across preschool, primary, secondary, and vocational education – training teachers, mentoring classrooms, and reaching thousands of pupils nationwide. These efforts continue to embed learning that is practical, engaging, and connected to real life.

This year also reinforced TOKA's role as a space for innovation and collaboration. From advancing research on mental health and climate education, to expanding international partnerships and diaspora engagement, we saw how shared values and collective effort can turn ideas into lasting impact.

None of this would be possible without you – our volunteers, youth leaders, teachers, parents, schools, municipalities, businesses, donors, diaspora partners, institutions, and friends. Your trust, energy, and belief in young people have carried TOKA through ten years of growth and transformation.

As we look ahead to the next year and next decade, we do so with gratitude, humility, and ambition – committed to deepening impact, strengthening systems, and continuing to invest in the potential of young people across Kosovo and beyond.

Thank you for being part of TOKA's journey.

In the meantime, we invite you to explore the highlights of 2025 – one year, among many, in a story we continue to write together.

With respect and gratitude,
Hatixhe Zeka
Executive Director
